

Uncle Sam Wants You...

To do your security due diligence...

MANAGING ENTERPRISE RISK

The Nine-Step Process Toward Achieving More Secure Information Systems

Categorize (your information and information system)

Select (the appropriate minimum or baseline security controls)

Refine (the security controls using a risk assessment)

Document (the security controls in the system security plan)

Implement (the security controls in the information system)

Assess (the effectiveness of the security controls)

Determine (agency-level risk to the mission or business case)

Authorize (the information system for processing)

Monitor (the security controls on a continuous basis)
